

DISCHARGE INSTRUCTIONS: DENTAL

- 1) Your pet was under general anesthesia today and may still be somewhat uncoordinated or groggy tonight. Please keep him or her from jumping or having free access to stairs tonight.
- 2) Some animals can be slightly nauseous from the anesthesia and may exhibit mild vomiting. Please monitor.
- 3) Offer water and food in small amounts tonight. Tomorrow you may feed as usual.
- 4) If there have been extractions, please feed soft food for the next 2 days.
- 5) Please give any prescribed medicines as directed.
- 6) If your animal refuses to eat or drink for more than 24 hours, please call.
- 7) **CALL US IF YOU HAVE ANY QUESTIONS OR CONCERNS AT 872-0661.**

I have received and understand the instructions given to me.
