

DISCHARGE INSTRUCTIONS: SPAY

- 1) All sutures are dissolvable and do not need to be removed.
- 2) Restrict activity to leash walking for the next 5 days. Prevent jumping and roughhousing.
- 3) Monitor the incision site for redness, swelling, or discharge. Do not let her lick too much.
- 4) Please call us if she refuses to eat or appears depressed after the first day, or if you have any other questions or concerns.

I have received and understand the instructions given to me.
